EDUCATION

Commerce

DSM Collage Of Science, Commerce and Arts, Parbhani.
2020 Jun- 2022 Apr.

Web Developement

Masai School
2022-2023 present.

TECHNICAL SKILLS

AI Tools | React | Git | PostMan |
ChatGpt | Python | RESTful APIs |
Django | JavaScript | CSS3 | HTML5 |
Responsive Web Design | Figma |
Canva

SOFT SKILLS

Effective Communication | Teamwork |
Adaptability | Problem Solving |
Attention to Detail | Time Management

INTERESTS

- Gaming
- Watch informative podcasts.
- Traveling

CERTIFICATIONS

- [Python \(Basics\)](#).
- [Bharat Intern \(Internship\)](#).

Prathamesh Magar

Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-driven full-stack web developer with expertise in Python, HTML, CSS, Django, and JavaScript. Proven track record of designing and implementing efficient and scalable web applications. Specialized in data structures and algorithms to optimize performance. Adept at collaborating with cross-functional teams to deliver high-quality solutions within project timelines. Passionate about staying updated on emerging technologies and continuously enhancing skills to drive innovation.

PROJECTS

1. Bewakoof Shopping app | |

- Built a cool shopping website from scratch using HTML, CSS, and JavaScript
- Implemented features like product display, add to cart, shopping cart page, and checkout form
- Learned a lot about web development through this project
- Worked individually to complete the project
- Used HTML form validation for the checkout form

2. SketchPy |

- Full-stack development using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented efficient server-side API with Node.js and Express.js.
- Designed and developed frontend components for a seamless user experience using React.js.
- Optimized MongoDB database models and queries for improved performance and scalability.
- Conducted thorough testing and debugging to ensure application reliability and stability.

3. Tkinter calendar |

- Designed and developed using Tkinter, a Python GUI library.
- Implemented features: date selection, event creation, and reminder notifications.
- Applied object-oriented programming for modular and reusable code.
- Ensured responsiveness and user-friendly interface through proper layout and design.
- Conducted thorough testing and debugging for reliability and stability.

WORK EXPERIENCE
